

The Changing Face of Poverty in DuPage County

DuPage County has experienced a significant increase in poverty since 2000. The percentage of children in poverty increased by 66% from 2006 to 2011.¹ The graph at right shows the percentage of DuPage residents who qualify in each of the following categories in 2000 vs. 2013.²

- Residents living in poverty
- Unemployment rate
- Receiving SNAP food assistance
- Persons Receiving Medicaid

What's Working

The DuPage County Continuum of Care

... developing and supporting effective strategies to prevent and end homelessness

- Combining the efforts of 58 social service providers to collectively address the problem of homelessness in our community
- An accurate data system focusing on the services most needed to end and prevent homelessness
- Developing a 5-year plan to address homelessness based on community needs
- Getting a qualitative and quantitative profile of persons experiencing homelessness
- Establishing measurable goals and strategies to respond to housing needs of the homeless

Causes of Homelessness:

- Mental illness, which if left untreated may result in the inability to hold a job and keep housing
- Substance abuse, which is associated with domestic violence, unemployment and mental illness
- Lack of adequate health care, which can result in deteriorating physical or mental conditions that pose real barriers to employment
- Domestic violence and experiences of trauma
- Inadequate income or loss of a job for persons living paycheck-to-paycheck

Who is homeless?

- People who are living in a place not meant for human habitation, in emergency shelter, in transitional housing, or are exiting an institution from one of the previous situations after less than 90 days.
- People who are losing their primary nighttime residence, or living in a doubled up situation, and lack resources or support networks to remain in housing.
- People fleeing or attempting to flee domestic violence, have no other residence; and lack the resources or support for housing.

Homeless Prevention...

strategic and cost-effective

Prevention services provided:	FY2011	FY 2012	FY 2013
Number of unduplicated households	1,732	1,697	1,748
Number of unduplicated individuals	5,148	4,631	4,577
Average amount of financial assistance per household	\$1,129	\$530	\$621

*86% of the households served remained housed three months or more after financial assistance was provided. Those served represent less than 31% of households requesting assistance in FY2013.

In FY 2013, a network of agencies committed to homelessness prevention in DuPage County distributed over \$1 million to prevent imminent homelessness and re-house those who have become homeless. Funding was pieced together by a number of sources including County, State, Federal and local charities. The need for prevention services continues to outpace resources with only 31% of requests for assistance being fulfilled.

(Data derived from DuPage CoC Homeless Prevention Providers Committee)

By the Numbers

Homelessness

	FY10	FY11	FY12	FY13
Number of persons who utilized an emergency shelter ³	1,486	1,460	1,384*	1424*

Children & Homelessness

- From 2006 to 2013, the number of homeless students identified and served in DuPage County has increased from 269 to 1,287.⁹
- Access to a free and appropriate education and the ability to stay stable in school are two of the most significant ways to decrease homelessness in the future.

What's Needed

- Affordable housing and support services in order to remain housed
- Jobs that pay a living wage
- Credit/budget education
- Investment in homeless prevention services to keep people in their homes
- Health care and access to treatment
